

Through

Red Fang

You must think I'm blind every night and day
I know what you want from me
I know what you want from me oooh yeah!

You must think I'm blind every night and day
I know what you want, I see it through your ways

You should've got your homework done
Now you're sitting under my thumb
I know what you want from me

Evical funny cars drives me out of your way
Magical superstars is what they call me today

You should've got your homework done
Now you're sitting under my thumb
I know what you want from me!

Mystical red window is what you push me through
My bleeding dreams way below I know I'm through and through

You should've got your homework done
Now you're sitting under my thumb
I know what you want from me!
