

Outer Space

Red Hot Chili Peppers

When I come to you, split this love in two
Overcome with fear but overdue
I set it free to let it move on

The crashing of your star, a fallen avatar
Goodbye wreckage now that we discard
Take it all so we can move on

Then I lost my grip, another sunken ship
Sinking into black and feeling sick
Now I know it's time to move on, on

I don't want to go, I don't want to go
I don't want to go to outer space
I don't want to know anything so cold
I don't want to go to outer space again

Easy come they say, hard as fuck to stay
Disconnected from my future day
The past is killing me so move on

And if it don't make sense, verbal violence
Sitting in your ship and on the fence
I get it's wrong to let it move on, on

I don't want to go, I don't want to go
I don't want to go to outer space
I don't want to know anything so cold
I don't want to go to outer space

I don't want to know when I lose control
I don't want to go to outer space again
