

EL DORADO

Red Leather

Reno is the city of gold
Reno has always been known as El Dorado

In the middle of the night
The cowboy rode into town
The drunken fool, he heard that there were riches to be found
He played the poker table
He spun the roulette wheel
He bet on black and hit the jack but lost on every deal
Tricked by the city
The city full of sin
He bet against the house
But the house always wins

Reno is the city of gold
Reno has always been known as El Dorado
