

Becoming of Saints

Red Line Chemistry

Standing our ground as the mourning proceeds
Kicking around so many memories
The speaker remains collected
He tells of her pain, that it's ended

I will remember
The life she surrendered
Becoming of saints, she led the way
Carried us all

Comfort the man who was left behind
He follows her soul, he'll find her all in time
They battled through life, oh for so long
She gave it a fight, now it's all gone

I will remember
The life she surrendered
Becoming of saints, she led the way
Carried us all

Becoming of saints
Becoming of saints
Becoming of saints

I will remember
The life she surrendered
Becoming of saints, she led the way
Carried us all
