Loaded like a hand grenade
She's perfect company

Please me like you can
Oh baby hurt me, know you can

Thinking out a million ways to say it's over
Out with my addiction, now I'm gonna take you home right now
Demon come you out of me, I'm trying to fight a
Battle with another me, I'm gonna need a place to go
So let me in

Entertaining sanity
Is such a bore to me
I love my pain, it's good to me
She likes it when I bleed

Please me like you can
Oh baby hurt me, know you can

Thinking out a million ways to say it's over
Out with my addiction, now I'm gonna take you home right now
Demon come you out of me, I'm trying to fight a
Battle with another me, I'm gonna need a place to go
So let me in

Thinking out a million ways to say it's over
Out with my addiction, now I'm gonna take you home right now
Demon come you out of me, I'm trying to fight a
Battle with another me, I'm gonna need a place to go
So let me in
