

## Fall of Man

Red Line Chemistry

Strange days and desperate times  
Black holes and parasites  
Some say it's the end of the world as we know

Dark skies and desolate eyes  
Serenade by the fireside  
For the girl with utopian dreams on her mind

We dream of revolution  
Before the fall of a man  
Rain down on the enemy where they stand

Waging war and kiss 'em goodbye  
Break the dawn and the boys that die  
Sing a song of the fight of their lives to go on?

Cast out and thrown in a void  
Join the lines of the unemployed  
Home town America's under the gun

We dream of revolution  
Before the fall of a man  
Rain down on the enemy where they stand

Revolt to save a nation  
Before the fall of a man  
Last fight in the order for what we stand

We stand  
We stand

We dream of revolution  
Before the fall of a man  
Rain down on the enemy where they stand

Revolt to save a nation  
Before the fall of a man  
Last fight in the order for what we stand

We stand  
We stand  
We stand...
