Red Line Chemistry

I use to be somebody who could control myself  
But I can't anymore  
I used to have a grip on reality  
But I keep on slipping down  
Now I'm under pressure  
Deny the limitation  
I am my own worst enemy it kills me every time

Big machine  
I'll take it for a ride  
Get inside and grow this  
crushing sound  
Deny the limitation  
Deny the limitation

It's all a part of the animal in myself  
And I just don't care anymore  
I let it take the shape of duality  
And I feel I'm breaking out  
Now I'm under pressure  
Deny the limitation  
I am my own worst enemy it kills me every time

Big machine  
I'll take it for a ride  
Get inside and grow this crushing sound
