

Big Stick

Red Lorry Yellow Lorry

Big stick has got a 2-way smile
Knock you up then knock you down inside
Big stick coming down on you
This is a place where nobody moves
Falling down with you
Falling down, oh yeah
Big stick pounding in my head
You dragged me up, and now i'm out on the deck
Big stick knock me to the ground
You spend your time just pulling me down
Falling down with you
Falling down, oh yeah
Big stick, big stick
It's up to me, up to me, up to me
Not to let you bring me down so easily
Big stick coming down on you
This is the time when nobody moves
Oh yeah, oh yeah
