

Hands Off Me

Red Lorry Yellow Lorry

You're the only one my blue-eyed son
Know yourself and the rest will come
You're the only one this world has seen
Love yourself and the rest is free
Hands off me! Hands off me!
You're the only one that's true inside
You're the one who's never lied
You're the only one who knows the truth
Little lines keep showing through
There's a lot of bear, there's a lot of bear
See the world like there's no one there
There's a lot to learn, there's a lot to learn
See my face and my body burn
Hands off me! Hands off me!
