

Head All Fire

Red Lorry Yellow Lorry

Changes in every lane she wanted to
Danger was just thin white line

She had head all fire
She had head all fire
She had head all fire
She had head all fire
She had head all fire
She had head all fire

Tasted everything she wanted to
Wasted and burning up inside

She had head all fire
She had head all fire
She had head all fire
She had head all fire
She had head all fire
She had head all fire
