

# Shake Monster

Red Rider

I was on patrol, it was late at night  
I was checking the parameters to see if it was air tight  
All points clear, looked like everything was alright  
Twelve o'clock high when I saw the big green light

Stop this thing 'cause I've got to get off  
Take a better look,  
She walked out, she was all lit up  
She gave the command, I shook

Shake, shake, shake, shake, shake, shake it!

How's your planet tonight, big boy?  
Are your jets engaged, are your missiles deployed?  
I'm the shake monster, I ain't made of silicon  
I've come down here to restore detente

Stop this thing 'cause I've got to get off  
Take another look,  
She walked out, she was all lit up  
She gave the command, I shook

Shake, shake, shake, shake, shake, shake it!

Stop this thing 'cause I've got to get off  
Take another look,  
She walked out, she was all lit up  
She gave the command, I shook  
Shake, shake, shake, shake, shake, shake, I can't hear you  
Shake sir, shake, shake, shake, shake, shake, shake, shake it!

Now I've got the moves  
I, I'm a shake monster, too  
Shake it!

I was on patrol, it was late at night  
I was checking the parameters to see that it was air tight  
All points clear, looks like everything was all right  
Twelve o'clock high when I saw the big green light

Shake, shake, s-s-shake, shake, s-s-shake...  
She had eyes in the back of her head  
Her thighs were high  
(How high?)  
Real high  
I broke out in a cold sweat  
I was shaking from my toes to my head  
Shake, shake, shake, shake...
