

Drag You Down

Red Shahan

How do you sleep at night
When you know I'm in the neighborhood?
And how do you sleep at night
While you know I'm doin' no good?

I've been picking up the night shift
And the day shift too
I punch my card as I lay down
And over time gettin' over you

Oh but I won't drag you down
Oh but I won't drag you down

I cleaned up and I moved out
And bought a razor too
But I don't shave or cut my hair
I want to recognize this fool

I can see where you stand
You keep your distance from every man
Just listen when I say "No more"
I don't wanna face this anymore

Oh but I won't drag you down
Oh but I won't drag you down

How do you sleep at night
When you know I'm doin' no good?
