

Sparkling Wine

Red Sovine

Give me a big glass I said a big glass let it sparkle with wine
Love didn't last now the past I must leave behind
Caught you deceivin' now that's the reason I must try to forget
Give me a big glass, I said a big glass take it there from the
shelf

Fill it up it might even take more
On the past I must close the door
It's not an old love but a cold love that's twisted my mind
Give me a big glass, I said a big glass of sparklin' wine

Give me a big glass, I said a big glass
Dreams didn't come true
There was no part of my heart
That didn't love you
Numb the feelin' that I'm feelin' let me live through the night
Give me a big glass I said a big glass of sparklin' wine

Fill it up it might even take more
Of the past, I must close the door
Its not an old love, but a cold love that's twisted my mind
Give me a big glass, I said a big glass of sparklin' wine
