

Push

Red Sun Rising

There's a deafening scream in my ear
There's a beacon of light that blinds me
Out of Touch
I've become
With my mind
And now I push and pull you
Push and pull you, push n pull you

Shout out to everyone
Upon your finger cross
You'll lie to anyone
Lie, cheat, full sin
You told everyone
That you'll rob anyone
Exposed by the circle son
Lie, cheat, full sin

You've been losing your voice from screaming
As the glimmer of light slowly fades
Hide your face
You've become
Pivotal
Uniting us

Push and pull you
Push and pull you
Push and pull you

Shout out to everyone
Upon your finger cross
You'll lie to anyone
Lie, cheat, full sin
You told everyone
That you'll rob anyone
Exposed by the circle son
Lie, cheat, full sin

Shout out to everyone
Upon your finger cross
You'll lie to anyone
Lie, cheat, full sin
You told everyone
That you'll rob anyone
Exposed by the circle son
Lie, cheat, full sin

Push and pull you
Push and pull you
Push and pull you
Push and pull you

Lie, cheat, full sin

Shout out to everyone
Upon your finger cross
You'll lie to anyone
Lie, cheat, full sin

You told everyone
That you'll rob anyone
Exposed by the circle son
Lie, cheat, full sin

Shout out to everyone
Upon your finger cross
You'll lie to anyone
Lie, cheat, full sin
You told everyone
That you'll rob anyone
Exposed by the circle son
Lie, cheat, full sin
Lie, cheat, full sin
