Ah
Ah, ah
Ah, ah
Ah
Ah, ah
Ah, ah

Ah
Ah, ah
Ah, ah

Like a dazzling night festival
Still vividly remaining, float away
Memories like dazzling fantasies
Ah, tearfully
All the beautiful
Times are leaving me, stealing you away
Shining faintly
Oh, baby

Every day passing us by
Night and day getting further away
This isn't the end, remember
It was passionately green

Let's begin, the last drop for you
You and I, yeah, we never gonna stop
Pour it out generously, the last drop
Giving my all
Burning myself pure white, the last drop
Make it blast 'til the very last time
Shining brightly on you, the last drop

Giving it all I've got

Forever on an unchanging orbit
I will gladly stay by your side
Even if everything eventually breaks apart, oh
You make my world go around
Turn it right up when it's down
No matter what form, it's alright
Because in the end, I realize

I'm not afraid in every way
Because it's you who kept me through the long nights
Shining again like a miracle
Embracing deeply

Let's start, the last drop for you
You and I, yeah, we never gon' stop
Pour it out generously, last drop
With all my heart
Burn myself pure white, last drop
Make it blast 'til the very last time
Shining brightly on you, last drop
With all my strength

No one knows where a fading star goes
But we can feel each other
And I'll fly light-years to find you (I'll fly, I'll fly)
To you, who made me shine bright (Shine bright)
In the boundless night
To you, my universe (*Last drop*)
And the only reason I exist

I'll shine on you with all my heart until the end

On any night, dazzling brightly
I'll always be here for you
Smiling, meeting again (Ooh)
Like our first time
Remember our last drop
You and I, yeah, we never gon' stop
Moments we'll forever engrave
With all my heart
It'll be another beginning, our last drop (To the very last drop)
Make it blast 'til the very last time (To the very last drop)
Standing at the end of the world's night
With all my strength

Ah
Ah, ah
Ah, ah
