

Light Me Up

Red Velvet

Tonight I wanna light up the world between you and me
All I wanna do

Tonight I wanna light up the world between you and me
All I wanna do

It's like I've opened my eyes
The clouds have been collected, and the sun has risen
You wake me up
You reveal my small flame and make it bright

So, I'll try step one more step towards you
I'll get closer
I'll erase my shadow, ooh ah
Come here boy; wanna talk to you
We have to know each other more
Let's confess to each other, I'm in love

Ooh boy, come and light me up
Please brighten the dark world
Light me, light me, here, please hold my hand
Ooh boy, the more it grows
Love's a light that grows brighter

I want us to be eternal
The light grows, it comes like dawn
That one moment of dark night vanishes
Oh, what is it I'm afraid of?
I wanted and had it, this moment
Light me up

I saw it, that light that poured in front of my eyes
With lovestruck eyes, it shines on us
It's so beautiful

So, I'll try step one more step towards you
I'll get closer
I'll erase my shadow, ooh ah
Come here boy; wanna talk to you
We have to know each other more
Let's confess to each other, I'm in love

I'm in love
I want to hear more stories from you everyday
We're exchanging stories
My stories too

Ooh boy, come and light me up
Please brighten the dark world
Light me, light me, here, please hold my hand
Ooh boy, the more it grows
Love's a light that grows brighter

I want us to be eternal
The light grows, it comes like dawn
That one moment of dark night vanishes
Oh, what is it I'm afraid of?

I wanted and had it, this moment
Light me up

Don't make me feel lonely and cry tears
In this light, you've burned my everything
You make me so crazy
I become a little dizzy, please hold me tightly

Ooh boy, come and light me up
Please brighten the dark world
Light me, light me, here, please hold my hand
Ooh boy, the more it grows
Love's a light that grows brighter

I want us to be eternal
The light grows, it comes like dawn
That one moment of dark night vanishes
Oh, what is it I'm afraid of?
I wanted and had it, this moment
Light me up
I'll leave it on forever, light me up

Tonight I wanna light up the world between
You and me
All I wanna do
