

Infidel

Red

I wanna hear you scream

I hear the cry
The helpless lie
Innocence unfolds
You let me take
You let me break
I'll purify your soul

Come to me
Come with me
I can't control anything inside
Go under, underneath
I can't let go now
I can't let go

Running away
But it's over now
Surrender my prey
Oh, my infidel
My infidel
Now I wanna hear you scream

Closer now
A beggar's crown
A saint and a slave
The throne you made
Keeps you in chains
So obey, obey

Come to me
Come with me
I can't control anything inside
Go under, underneath
I can't let go now
I can't let go

Running away
But it's over now
Surrender my prey
Oh, my infidel
My infidel
I wanna hear you scream

You make me believe
You make me believe
You make me believe

Fear of the fear
It's only fear of the fear
Pain, oh the pain it's coming
I'll make it real
I'll make it

Running away
But it's over now
Surrender my prey

Oh, my infidel
My infidel
Now I wanna hear you scream
Scream
