

## Our Time Will Come

Red

When all our days turn to night  
Echoes only left of where we hide  
And you save so many lives  
But never got around to save yourself

And you see the way you wanted it to go  
Always waiting 'cause you never know  
Never know

Someday our time is gonna come  
Don't waste your life til it's over  
Someday our time is gonna come  
Ashes to ashes, dust to dust

Hear the cold voice of your life  
Haunting like an enemy inside  
Dragging under falling further  
Crossing hearts with a hope to die

Someday our time is gonna come  
Don't waste your life til it's over  
Someday our time is gonna come  
Ashes to ashes, dust to dust

Our time will come

Someday our time is gonna come  
Don't waste your life til it's over  
Someday our time is gonna come  
Ashes to ashes

Someday our time is gonna come  
Don't waste your life til it's over  
Someday our time is gonna come  
Ashes to ashes
