

# Watch You Crawl

Red

Put my back against a wall  
Watching, waiting  
You never thought I'd get this far  
Beneath your skin

I watched you swim with all your lies  
They pulled you under  
And as you wait for my demise  
I'm just getting stronger

Learning who you really are  
And nothing can save you

I will fight until the end  
Get ready to collide  
And I will watch you fall again  
I'll bury you alive  
You tried to bring me to my knees  
You tried to take it all  
Now I will stand and watch you crawl

I put you back where you belong  
Hopeless, fading  
And I will rise while you  
Calm the monster you have fed

Let you drown in your despair  
Now nothing can save you

I will fight until the end  
Get ready to collide  
And I will watch you fall again  
I'll bury you alive  
You tried to bring me to my knees  
You tried to take it all  
Now I will stand and watch you crawl

Now I'm gonna watch you crawl!

I will fight until the end  
Get ready to collide  
And I will watch you fall again  
I'll bury you alive  
You tried to bring me to my knees  
You tried to take it all  
Now I will stand and watch you crawl
