

Condition Your Condition

Redbone

You've twenty-twenty blindness
yet sneaky as a rock
You're up to your neck in power
And full of B.S. jive

Your friends inflate your ego
Completely out of sight
I've got to get a message to you
Where can you be found

Use it brother, don't abuse it
Condition your condition
Condition your condition
The latest word you are fixin
Your body for your mind
Your family's heart is broken
And still you criticize

You put your trust in no one
And no one can trust you
I've got to let you know my friend
What it is is what it is

Use it brother, don't abuse it
Condition your condition
Condition your condition
Dig where I'm coming from my friend
If you can be that
Condition your condition
Condition your condition
I'm just being up front my friend
Why can't you see that
Condition your condition
Condition your condition
