

Give Our Love Another Try

Redbone

Remember
The fun we used to have
We were two of a kind
So much alike
We loved the same kind of music
It made the night go by so fast

We made a big thing
Out of nothing
If there's a way somehow
We'll work it out

We've got to give our love another try
We've got to give our love another try

I remember
The way it used to be
It makes me wanna cry
Every time I hear that good old song
It's a mystery to me
How I let you get away

We made a big thing
Out of nothing
If there's a way somehow
We'll work it out
