

Light As A Feather

Redbone

Light as a feather

From the inside out
I know what I'm all about
Oh, so people
I've got my pieces together

And it's true, I don't let it show me a reason
To believe I've got soul
It's gonna make me feel better
Light as a feather

And it's true, I don't let it show me a reason
To believe I've got soul
It's gonna make me feel better
Light as a feather

Oh, so people, get it together
It's gonna, it's gonna, it's gonna make me feel better
Light as a feather
