

## Power

Redbone

She doesn't know of love  
Laughs when I offer mine  
It's you she's thinking of  
I can see, I'm not blind  
You give her a feeling that's real  
And you make her feel  
Like I want her to feel.

You've got the power  
Show her what love is  
You've got the power  
Show her what love is

You've got the power  
Strength that I've never had  
You fill all her empty hours  
When she's happy  
I'll be glad  
You give her a feeling that's real  
And you make her feel  
Like I want her to feel, so

You've got the power  
Show her what love is  
You've got the power  
Show her what love is

You've got the power
