

Burn Out

Redd Kross

Burn out, can't go any farther

Burn out, well i'm not getting smarter

Burn out, something once for fun

Burn out, now i can't get it done

So leave me leave me leave me alone (now now now)

Leave me leave me leave me alone (now now now)

Leave me leave me leave me alone (now now now)

Leave me leave me leave me alone (now now now)

And please don't make fun of me

Burn out, get off my case

Burn out, well can't you see my face

Burn out, say it with a grin

Burn out, paranoia sets in
