My mind's like a trash can
Don't think I see
..... back?
And cindy brady
What do you say that hasn't been said
What do you say that's never been said
Where do you go where you haven't ever gone
What do you do that's never been done
Why even walk
When you can run

It's so loud in here
You can hear everything
It's gonna make you crazy
Gonna need a shrink
All this time for boredom can really be a drag
So cover your head with a plastic bag
Where do you go where you haven't ever gone
What do you do that's never been done
Why even walk
When you can run
