

Stand back, take a look at your creation  
There's no sympathy for the motherless child  
Beware of your own imagination  
There's no cure for man's need to conquer the wild  
Remove your spine I feel fine  
It's getting uglier every day  
It's getting uglier no matter what they say  
This world is crazy, spinning out of control  
Got to get together cause it's taking its toll  
It's getting uglier every day  
Shove your head, it's on overnight salvation  
There's no escapin' doing hard time in your mind  
Your self-respect, well it's just a decoration  
Sleep with one eye closed cause the other one's blind

Learn to hide Peace of mind  
It's getting uglier every day Uglier no matter what they say  
This world is crazy, spinning out of control  
Got to get together cause it's taking its toll  
It's getting uglier every day It's getting uglier every day  
Uglier no matter what they say  
This world is heavy, man, it's crushing our souls  
Gravity is killing, can't escape this black hole  
It's getting uglier every day  
It's getting uglier  
It's getting uglier  
Uglier  
You're getting uglier every day  
I'm getting uglier every day  
We're getting uglier  
Every day
