

## Doin' Life

Redferrin

I was hell on wheels 'til every damn wheel fell off  
If you told me not to do it, then I did it with a why-the-hell-not  
Like I held onto us through the dust just hopin' somehow  
Maybe we can ride it out  
Even though I knew we were headed for the ground

Lucky to even be alive  
Way I was doin' life  
Hardly made it through the nights  
I was fightin' suicide  
Every day, feelin' low  
Like it's just the way it goes  
When you come from down the road  
You get used to gettin' by, just tryin' to survive  
Way I was doin' life  
Felt like I was doin' life, yeah

After I loved her, never was the same again  
She said same 'bout cocaine and Jameson  
She got me drunk, I got her high  
End up the same way every damn night  
Thought we were untouchable, but I ain't touch her since  
That same loose night where the river bend  
Say no, took all of my money  
And that midwest honey done run off with my heart

Lucky to even be alive  
Way I was doin' life  
Hardly made it through the nights  
I was fightin' suicide  
Every day, feelin' low  
Like it's just the way it goes  
When you come from down the road  
You get used to gettin' by, just tryin' to survive  
Way I was doin' life  
Felt like I was doin' life  
Way I was doin' life

Lucky to even be alive  
Way I was doin' life  
Hardly made it through the nights  
I was fightin' suicide  
Every day, feelin' low  
Like it's just the way it goes  
When you come from down the road  
You get used to gettin' by, just tryin' to survive  
Way I was doin' life  
Felt like I was doin' life
