

# Just Like Johnny

Redferrin

Crack a bottle, pour another drink  
Flicking cigarettes off in the sink  
'Bout to kick it into gear and hit the bar  
Took this shit too far that night and broke your heart again  
Baby, I don't think I'll ever learn  
Probably always had to crash and burn  
It's like I love living in the flames  
Swear I will, but don't think I'll ever change

Girl, the same way Johnny loved June  
Is the same way I'll be loving you  
'Til the day them angels come through  
Just make sure you want it, baby  
'Cause I'm just like Johnny, yeah  
I smoke that smoke to get high  
Ain't nowhere close to walking that line  
Stay three sheets gone and out of my mind  
So make sure you want it, baby  
'Cause I'm just like Johnny, baby

Ain't no doubt about it, I'ma let you down  
I keep on wondering how long you gon' stick around  
How many times have I put you through the rain?  
And after all the hell, still ain't a ring up on that finger, no  
Baby, I don't think I'll ever learn  
You'll probably always have to watch me crash and burn  
I always fall back in the same traps I've always been caught up in  
Again and again 'til the end

Girl, the same way Johnny loved June  
Is the same way I'll be loving you  
'Til the day them angels come through  
Just make sure you want it, baby  
'Cause I'm just like Johnny, yeah  
I smoke that smoke to get high  
Ain't nowhere close to walking that line  
Stay three sheets gone and out of my mind  
So make sure you want it, baby  
'Cause I'm just like Johnny, baby
