

## An Intervention

RedHook

I think I lost my underwear  
To the poser with long hair  
In the Frankie's fun room stall, yeah I swear  
And I think that I might need an intervention

I kissed the girl with champagne eyes  
Who I secretly despise  
Cause she's prettier than me  
Genetically fancy  
And I think that I might need an intervention

Yeah I think that I might need an intervention

It's all just glitter in the trash can  
Poison Ivy, Batman, lock me up  
Cause I'm a good girl with some bad intentions  
And I think that I might need an intervention

I'm always sad like Hollywood  
And I abuse my body til it feels good  
Watch me powder my nose  
Off the skin from your bones  
And I think that I might need an intervention

It's all just glitter in the trash can  
Poison Ivy, Batman, lock me up  
Cause I'm a good girl with some bad intentions  
And I think that I might need an intervention

It's all just glitter in the trash can  
Poison Ivy, Batman, lock me up  
Cause I'm a good girl with some bad intentions  
And I think that I might need an intervention

Would it be ok  
To lose my mind today?  
Don't mind, just lock me up  
Cause I'm a good girl with some bad intentions  
And I think that I might need an intervention
