

Molecules crash, atomic attraction
A padlock in a chain reaction
The particles of all our chemicals collide
(The particles of all our chemicals collide)
Wet friction, fuck like we're pornstars
Pulp Fiction, scenes at the dive bar
Wasn't it biblical when we were ride or die?
(When we were ride or die)

Then as if some kind of flash of lightning
Turned everything frightening
Swear something died, something else came to life...

So am I Dr. Frankenstein? (Frankenstein)
Or were you a monster the whole time? (The whole time)
Did I create this nightmare with all my mistakes?
Am I Dr. Frankenstein? (Frankenstein)

Keep tabs like you're a little child
Won't let you go out in the wild
Unless you're under the sight of my watchful eye
(Unless you're under the sight of my watchful eye)
So suspicious and constantly drag me
So I ask all my friends not to tag me
When we go out at night so you don't catch the lie
(When we go out at night so you don't catch the lie)

So am I Dr. Frankenstein? (Frankenstein)
Or were you a monster the whole time? (The whole time)
Did I create this nightmare with all my mistakes?
Am I Dr. Frankenstein? (Frankenstein)

Am I Dr. Frankenstein?
Frankenstein

Broke my trust, did it over and over
Now I'm stuck with all this paranoia
Where do we go from this sickening horror show?
(Where do we go from this sickening horror show?)

So am I Dr. Frankenstein?
Am I Dr. Frankenstein?
Or was I the monster the whole time? (The whole time)
Did I create this nightmare with all my mistakes? (This nightmare)
Am I Dr. Frankenstein? (Frankenstein)

Think I became the monster
With all my mistakes
Am I Dr. Frankenstein? (Frankenstein)
