

# Only Bones

RedHook

I've gotta be  
Out in space because no one can hear me scream  
And it feels  
Like I'm running out of air and I just can't seem to

Get Up  
Can't find the floor  
Do you know which way to hit the exit door?  
Keep up  
Cause you know it's hard to run away in this anti-gravity

Bleed me dry with your vampire teeth (don't worry)  
Don't worry, it's fine  
I don't need that blood anyway (just take it away)  
Tear my flesh, you can take the rest (don't worry)  
Don't worry now  
These vultures won't stop til I'm  
Only bones  
Only bones  
Only

I've gotta find  
Find a way to get these insects off my mind  
Cause it feels  
Like they're chewing on my nerves and a voice is screaming

Get Up  
Get on the floor  
There's a feeding frenzy, if you like it raw  
Eat up  
Cause it's going down like super gravity

I can't feel my face  
It's alright, alright  
Just as long as you get what you want  
You can take what you want  
I'll be fine, just

Bleed me dry with your vampire teeth (don't worry)  
Don't worry, it's fine  
I don't need that blood anyway (just take it away)  
Tear my flesh, you can take the rest (don't worry)  
Don't worry now  
These vultures won't stop til I'm  
Only bones  
Only bones  
Only

I've been missing the parts of me that used to be  
Before you came and  
Ripped everything away  
Ripped everything away  
And if I had a spine left I'd tell you to  
Regurgitate the time you ate you selfish fucking cannibal

Bleed me dry with your vampire teeth (don't worry)  
Don't worry, it's fine

I don't need that blood anyway (just take it away)  
Tear my flesh, you can take the rest (don't worry)  
Don't worry now  
These vultures won't stop til I'm  
Only bones  
Only bones
