

# Psych vs. Psych

RedHook

My psych, your psych  
Put 'em in a ring  
Let 'em fight it out  
To figure out the state we're in  
My psych, your psych  
Put 'em in a ring  
Let 'em fight it out  
For who's to blame for everything

Where's the off switch?  
I wanna stop the ride!  
Choking on words like I've been gargling cyanide  
It's a toxic, hot, sick sentimental fuck  
White knuckles on rails like we're stuck  
Upside down on a broken

Roller coaster  
Bathtub...  
Toaster...  
Who's the victim?  
Answer's not any closer...  
My psych, your psych, put 'em in a ring...

Sock me with your next punch  
Just to break the tension  
Antisocial combat  
Cruel intentions  
Stalemate on the front lines  
Dyin' from the drama  
Screaming like a rabbit in a cage of trauma  
Dig in nails  
Systems fail  
Just another fucked up fairytale

Hand me a gas mask  
'Cause I can't breathe in this room!  
It's a bomb site, no light coming through the cracks  
Just black, wrapped up like a tomb  
Shrink my head  
I'm hanging by a thread  
Upside down on a broken

Helter skelter  
Baseball...  
Belter...  
Who's the abuser?  
My psych, your psych, put 'em in a ring...

Sock me with your next punch  
Just to break the tension  
Antisocial combat  
Cruel intentions  
Stalemate on the front lines  
Dyin' from the drama  
Screaming like a rabbit in a cage of trauma  
Dig in nails  
Systems fail

Just another fucked up fairytale

My psych, your psych  
Put 'em in a ring

To figure out the state we're in  
My psych, your psych  
Put 'em in a ring

Fuckin' bullshit mate

Sock me with your next punch
