Redlight

You're the only one to cure me
(Cure me, cure me)
You're the only one to cure me
(Cure me, cure me)

You're the only one to cure me, cure me
Feel so good inside
You're the only one to cure me, cure me
Feel so good inside
You're the only one to cure me, cure me
Feel so good inside
You're the only one to cure me, cure me
Feel so good inside

You're the only one to cure me, cure me
Feel so good inside
You're the only one to cure me, cure me
Feel so good inside

All night, all day, need you to carry me away
All night, all day, need you to carry me away

Got lost inside my head
Wind's been running my skin
Tired of this empty space
I want a feeling from your touch
(Feel so good inside, cure me)

You're the only one to cure me, cure me
Feel so good inside
You're the only one to cure me, cure me
Feel so good inside
You're the only one to cure me, cure me
Feel so good inside
You're the only one to cure me, cure me
Feel so good inside
Cure me
Cure me
You're the only one to cure me, cure me
Feel so good inside
You're the only one to cure me, cure me
Feel so good inside
Feel so good inside
Feel so good inside
