

# I'll Be Waiting

Redlight

Can't see straight  
The world is moving  
But it's okay  
As long as you can hear my siren

It's got so late  
Keep me on this way boy  
Smoking away  
Keeps me miles away from you

Oohh I've been looking out for you  
'Cause you got me in the mood don't ya  
And I'll be waitin' here for ya  
I'm looking through the blue  
As you walk into the room  
Keep on doing what ya do won't ya  
And I'll be waiting here for ya

I'll be waiting, I'll be waiting  
I'll be waiting here for ya  
I'll be waiting, I'll be waiting  
I'll be waiting here for ya  
I'll be waiting, I'll be waiting  
I'll be waiting here for ya

Can tonight be the night  
We fly in the sky  
I never wanna let you go  
Last night was the night  
We met in the sky  
I'm high as a kite I know  
Let's just drink away the pain  
And live 'til the end  
I know that I'm here to turn the place with my friends  
I'm waiting in line  
Syrup with the sprite  
Let's not waste time  
She's fine as wine  
Go hard 'til I shine  
I wanna piece of the pie  
Live young til I die  
You know the limit the sky

Oohh I've been looking out for you  
'Cause you got me in the mood don't ya  
And I'll be waitin' here for ya  
I'm looking through the blue  
As you walk into the room  
Keep on doing what ya do won't ya  
And I'll be waiting here for ya

I'll be waiting, I'll be waiting  
I'll be waiting here for ya  
I'll be waiting, I'll be waiting  
I'll be waiting here for ya  
I'll be waiting, I'll be waiting  
I'll be waiting here for ya

So right my body's shaking  
So good my minds awaken

Oohh I've been looking out for you  
'Cause you got me in the mood don't ya  
And I'll be waitin' here for ya  
I'm looking through the blue  
As you walk into the room  
Keep on doing what ya do won't ya  
And I'll be waiting here for ya

I'll be waiting, I'll be waiting  
I'll be waiting here for ya  
I'll be waiting, I'll be waiting  
I'll be waiting here for ya  
I'll be waiting, I'll be waiting  
I'll be waiting here for ya
