

Seasons

Redlight

(Changin' like the seasons
Changin' like the seasons
Changin' like the seasons
Everythin' is changin' like the seasons
Changin' like the seasons
Changin' like the seasons)

Through the beam in the sun
In the heat, in the cold, mmh
Oh, we twist and we fall
Plans of silver and gold, gold

Everythin' is changin' like the seasons
But I'm still here with you
Spendin' time just lookin' for the feelin'
I catch my feels with you
Everythin' is changin' like the seasons
But I'm still here with you

If this love we got
I'm just standin' around
Blue skies that we see
With the sand on my feet

Everythin' is changin' like the seasons
But I'm still here with you
Spendin' time just lookin' for the feelin'
I catch my feels with you
Everythin' is changin' like the seasons
But I'm still here with you

Ooh ooh ooh
Ooh ooh ooh
Ooh ooh ooh
Ooh ooh ooh
Ooh ooh ooh
Ooh ooh ooh

As the seasons, they are fading
But I'm still here with you by my side
Ah-ah-ide, ah-ah-ide, ah-ah-ide

Everythin' is changin' like the seasons
But I'm still here with you
Spendin' time just lookin' for the feelin'
I catch my feels with you
Everythin' is changin' like the seasons
But I'm still here with you
