Yeah, please don't try your luck now

I've been running miles, think I need to slow down
The money helps me cope so I don't need a show now
Walk back to them days I put my weight up on the ground
Lucky if I switch, I'm screaming fuck a Opp now

Please don't try your luck now
Please don't try your luck now

Niggas switch face
Snakes around so in the Jag I'm in the good place
Do the dash, they try to save me I'mma do the race
Bad habits had me sinking tryna grip the wall
And these motherfuckers never answered veil call
Being toxic, getting ghosted in the long haul
I ain't got patience for that shit so I'mma keep it movin'
Losing shit that hold you back then you not really losin'
Fuck a blunt, I smoke these bitches that be in this game
Frontin', get yo own lane
[?] I mix the cocaine with the Cobain
Every shade of face be fucking with me, I'm a cold case
Know these niggas steady flodgin' like they Slim Jay
Chasin' after paper, bitch I'm runnin' till my limbs break
Do 100 on the dash until the rims fade
Chasin' after paper, bitch I'm runnin' till my limbs break
Do 100 on the dash until the rims fade
