

I don't let it show, just wanna let you know
The words I'll never say to you
I want you in my life but I keep it all aside
You might be scared if you knew the truth

I never missed somebody like you
Say what you want like you got something to prove
The way you look at me, I can't even move
I lose all control, I don't know what to do

Standing right in front of me
I can't find a way to get to you
Can't find a way to get, can't find a way to get
Can't find a way to get, can't find a way to get to you
You're the only thing I need
You can show me what I never knew
Can't find a way to get, can't find a way to get
Can't find a way to get, can't find a way to get
(Oh get to you)

I want you to stay, I just can't explain
The feeling when I'm next to you
Can't let you get away, I wish I knew the way
To make you love me the way I love you

I never missed somebody like you
Say what you want like you got something to prove
The way you look at me, I can't even move
I lose all control, I don't know what to do

Standing right in front of me
I can't find a way to get to you
Can't find a way to get, can't find a way to get
Can't find a way to get, can't find a way to get to you
You're the only thing I need
You can show me what I never knew
Can't find a way to get, can't find a way to get
Can't find a way to get, can't find a way to get
(Oh get to you)

(A way to get to you)
(A way to get to you)
(A way to get to you)
(A way to get to you)

Standing right in front of me
I can't find a way to get to you
Can't find a way to get, can't find a way to get
Can't find a way to get, can't find a way to get to you
You're the only thing I need
You can show me what I never knew
Can't find a way to get, can't find a way to get
Can't find a way to get, can't find a way to get
(Oh get to you)
