

## more for me

Reed Deming

If I fall without a safety net  
How far before I need it  
How long can I hold the apple  
Until I sink my teeth in?  
How else do I have to get  
Before I find a reason?  
To run back home to you

And my heart wanders again and again  
'Cause I forget

You have more for me than that  
Freedom that I've never known  
You have more for me than that  
You don't leave me on my own  
You have more for me than that  
Everything I'm chasing down  
That never pulls me back  
No matter what I have in this world  
You have more for me than that

I justify my mess  
With my human condition  
And when I get in too deep  
I drown on my convictions  
How well do You have to speak  
Before I stop and listen?  
And come back home to You

You have more for me than that  
Freedom that I've never known  
You have more for me than that  
You don't leave me on my own  
You have more for me than that  
Everything I'm chasing down  
That never pulls me back  
No matter what I have in this world  
You have more for me than that

I settle for the imitation  
Make it something that it's not  
Everything I think I got  
Oh God, You have more for me than that  
Oh, You have more for me than that

You have more for me than that  
Freedom that I've never known  
You have more for me than that  
You don't leave me on my own  
You have more for me than that  
Everything I'm chasing down  
That never pulls me back  
No matter what I have in this world  
You have more for me than that  
You have more for me than that
