

Fade

Reef

She came right before my eyes
So same resting on my mind

I don't build these walls between us
Take me to the top I feel no shame
I don't see these walls between us
Take me to your drug related game

She came right before my eyes
So same resting on my mind
It's on my mind

I don't build these walls between us
Take me to the top
I feel no shame
I don't see these walls between us
Take me to your drug related game

I feel so good I cannot hide
I would not fade away
I would not fade away

She came right before my eyes
So same resting on my mind
It's on my mind

I don't build these walls between us
Take me to the top
I feel no shame, no shame
I don't see these walls between us
Take me to your drug related game

I feel so good I cannot hide
I would not fade away
I would not fade away

I would not fade away
I would not fade away
I would not be wasted
Oh I would not be wasted
I said I would not fade away
I would not be wasted
Oh I would not be wasted
I said I would not fade away
I would not fade away
