

Revelation

Reef

Riding rough shot all over the world
Annoying the boys and pleasing the girls
Some local hard ass [?] started a fight
We played our guitars and made it alright

Oh yeah we started up
A revelation
A revelation
A revelation

Stolen your card, forgot your ace
Turn up the drums and turn up the bass
And me I'm just a singer in a rock 'n' roll band
Shooting the music gun, bang, bang, bang, bang, bang, bang

Oh yeah we started up
A revelation
A revelation
A revelation

Okay!

Put down your phone and listen to me
These seven notes is all that we need
You got, you got, you got, you gotta give it to me
Open your heart and let it fly free

Oh yeah we started up
A revelation
A revelation
A revelation

All action
All action
All action

Come on now
