

I'd Rather Get It Wrong

Reel Big Fish

I'd rather get it wrong with you than right with anyone else
I'd rather sing along with you out of tune than sing it all by
myself
And you sure drive me crazy but at least we're on this road tog
ether baby
And I'd rather get it wrong with you than right with anybody el

Well, we squabble and we argue
Like a snake and a mongoose
Or a fire in a igloo
They ridicule us in laughter
Say that our ever after
Would be a disaster
But we both know what's up
We got nothin' here but love
And we stick together when everybody else is too busy being stu
ck up

I'd rather get it wrong with you than right with anyone else
I'd rather sing along with you out of tune than sing it all by
myself
And you sure drive me crazy but at least we're on this road tog
ether baby, oh yeah
And I'd rather get it wrong with you than right with anybody el
se

Let's talk about good friends
Just using quill pens
As a means to their ends
Let's talk about people you think you can trust
Now honey, there's nothin' more dangerous
But that's not the story with us
I've got your back when things get rough
And we stick together whether it's bad weather or whether it's
good luck

And I'd rather get it wrong with you than right with anyone els
