

No Snow

Reese Lansangan

From where I come from
Our Christmas begins in September
And I'll start being good around this time
So Santa could remember me

I take my old school socks
And hang them in a row
My friend just told me there's no Santa Claus
Well, what does she know?

People go to church here
As early as 4:00
They have got a hundred wishes in their hearts
They want to bring to the door

Though we might not eat turkey
And we never get snow
Yeah, there's no winter in my city
But, oh how we glow in Christmas time

And I, I, I, I, want you to know
That I, I, I, I, just want to go
Away with you and I'll wake you
In the morning

Just to do it all over again
'Till Christmas day

Eh eh eh eh
Eh eh eh eh eh
Eh eh eh eh

I wish it were colder
So I could find a love with you
Wish you were bolder
So take my hand and we'll be someone new

Yeah, it's December
Is there any moment better
For two?

And I, I, I, I'll fall in it deeper
Tonight, angels sing us to sleep
Oh, I'll wake you
In the morning

Just to do it all over again
'Till Christmas day

Eh eh eh eh
Eh eh eh eh eh
Eh eh eh eh

It's Christmas day
