

# Long Hot Summer

Reflection Eternal

This right here go out to all the ladies  
Who cannot predict when the sun will shine  
Just make sure when it do, you bask in it  
You embrace it, you let it hit you in the face  
Huh, you know what I'm talking bout  
Yo, yo, ay, ay

The sun was in the sky  
I was bumping "Sly Love", hard to find in the summertime  
You can spend a lifetime tryna predict when the sun will shine  
Or simply bask in it like the flowers that come alive  
Summer days always start extraordinary  
Summer nights there's water in the air, wish it would storm already  
I hit the corner store, I had a taste for strawberry quick  
Seen the broad, very tall, very thick, licking her lips  
Hips barely fit through the door  
Imagine that, she bought a dutch and a lemonade out the Escalade  
Bumping "Renegade" by Em and Jay  
Symmetrical braids, incredible edible legs  
Just to track her down, I went on a ghetto crusade  
Serenade this angel like Cyrano de Bergerac  
The lightness of her being was unbearable  
So here I am at her apartment building, apart from feeling  
"Heartless" like Kanye with a talk-box  
I walked four blocks out my way cause her walk had me focussed  
Her scent had me open, and since we had a moment  
What I'mma say? Hey, I seen you in the store?  
She went into a building and I had to guess the floor  
Knocking on every door, that took bout a half an hour  
Till she answered "whoa", was still soaked from the shower  
I seen some sour diesel broken up on my CD  
She introduced me to her room mates, this Vanilla Dutch and this is Swisha Sweety  
I got you open yet?  
It ain't over yet, I love you when you're soaking wet  
Been looking for you like the bounty hunter Boba Fett  
I'm the one but you don't know it yet  
The wettest skin, what a better beginning, she let me in  
Let us begin, perfect weather for sinning, my Seraphin  
We on the floor, barely made it through the door  
New high score, she never came like that before, wow
