

## Advance Upon Me Brethren

### Reflections

My eyes are frozen  
Stuck dancing with shadows  
Another night spent sitting with silence  
Screaming my name

And once again you've left me breathless  
Pondering what could have been  
These possibilities once were endless  
But I'm afraid we've come to the end

And I will never know  
And it's all because of you  
Forget the sunshine  
I'd rather scream with the moon

Tonight we silence  
All those who have held us back  
Never forget who stands behind you

Next time you reach up  
You'll find nothing

To hold you up

So once again you've left me breathless  
Pondering what could have been  
These possibilities once were endless  
But I know this is the end

I will never know  
And it's all because of you

Tonight we silence  
All of those who have held us back  
Never forget who stands behind you

Tonight we silence  
All those who held us back  
Never forget who stands behind you
