

Violent Reaction

Refused

I'm a violent reaction
I'm a violent reaction to you
I'm a violent reaction
I'm a violent reaction to you

Seduced by the charm in a charlatans arms
If you don't know the mark you were it from the start
Their profit, their yield, so repulsive to me
I could not ever be just a pawn in the scheme

Serpent savior
Dealer of regret
Venomous betrayer
Peddler of debt

Identify with all counterfeit needs
A spectacle so perverted by greed
We can't but must be non-conformist sheep

Level it all, level it all

As the sun it descends over mice and on men
This tyranny feels like the safest of deals
A prison to me you can't ever leave
Complete sacrifice, where nothing's for free
Tethered by the thought: this is all that we need

Level it all, level it all - destroy
Level it all, level it all - restore
Level it all - destroy, level it all - restore
Level it all - destruction, level it all - restructure

We dragged the stones
We broke our bones
We fought the wars
We fed the farce

We're a violent reaction
We're a violent reaction to you
We're a violent reaction
We're a violent reaction

Serpent savior
Dealer of regret
Venomous betrayer
Peddler of debt

Level it all, level it all
Level it all, level it all
Level it all, level it all
Level it all, level it all

Always locked on target
Since the day my fire was lit
I am a violent reaction
To a world that's gone to shit
I am a violent reaction

To you
I am a violent reaction
To you
