## Reggie and the Full Effect

This is how to build a better enemy  
We work together and we get it done  
I'm not exactly who I used to be  
So shut your mouth or else you're fucking gone

I wish the situation was different  
Nothing we can do now  
I wish that time was in our favor  
That things would be better  
How can you say that you are sorry  
I'm the only reason  
Driving you so crazy  
This is hatred

I've seen the future and it's caving in  
I thought that you might like to know

So here's how to build a better enemy  
Do it without me and you're fucking done  
I'm not the man you think I used to be  
I've been a visitor for way too long  
You need to think of probability  
Nothing can change the way I write this song  
This shit means nothing to me  
You say forever but I know it's gone

Has anyone else seen The Daylight Bank Robbery  
My shrink he said it was amazing  
Really got my money's worth  
In telling me I missed out  
Doesn't even realize that Jesse James did that shit  
In motherfucking Liberty

I've seen the future and it's growing thin  
I thought that you might wanna know

This is how to build a better enemy  
We work together and we get it done  
I'm not exactly who I used to be  
So shut your mouth or else I'm fucking gone

I am not the guy  
With the Uber nice singing voice  
I'm drunk a lot and I used to do a lot of drugs  
Never wondered why weenies made a choice  
I've traded in my twenties honey

I've seen the future and it's caving in  
I thought that you might like to know  
I saw the sutures and blood's pouring in  
There's nothing that's left for me to blow

I know that I'm losing all of my friends  
If you had my reasons  
You'd do the goddamned same thing

This is how to build a better enemy

We work together and we get it done  
I'm not exactly who I used to be  
So shut your mouth or else I'm fucking gone

You need to think there's probability  
Nothing can change the way you write this song  
This shit means nothing to me  
You say forever but I know it's gone
