

# Kanji Tattoos.... Still In Style???

Reggie and the Full Effect

This car is making me so sick  
The kind of sick that only trains provide  
An hour left till I'm swallowing my pride  
So here we are today  
With nothing left to say  
I hope you're doing well  
Hope this doesn't end with go to hell

Why does this happen to me?  
This always happens to me  
Wonder what you're thinking  
While you're daytime drinking  
Whatever thought cause now you're drunk  
If fine with me because now stay the night

Baby tell me that it's gonna be okay, come on tell me that you'll stay another day  
(Just say you'll stay the night)  
I can see it on your face, the sorrow, girl, we could run away tomorrow  
(Say you'll stay the night)  
Baby tell me that it's gonna be okay, come on tell me that you'll stay another day  
(Just say you'll stay the night)  
I can see it on your face, the sorrow, girl, we could run away tomorrow

I know that nerves can mess your head  
I see it when your chest is red  
It looks like mars  
So much has changed since we both lived in bars  
All of the things we didn't choose  
Most of the days I think we're losing both losing our minds  
Thankfully our house has lots of lines  
Why does this happen to me? (This can't be happening to me.)  
This always happens to me (This can't be happening to me.)  
You're beautiful when smiling (to me.)  
And even more inspiring (To me.)  
I've been a jerk. Our cars don't work  
But now you're stuck  
So baby just stay the night

Baby tell me that it's gonna be okay, come on tell me that you'll stay another day  
(Just say you'll stay the night)  
I can see it on your face, the sorrow, girl, we could run away tomorrow  
(Say you'll stay the night)  
Baby tell me that it's gonna be okay, come on tell me that you'll stay another day  
(Just say you'll stay the night)  
I can see it on your face, the sorrow, girl, we could run away tomorrow

We know each other better than we know ourselves  
This isn't anything but it's everything to me to me  
Just stay the night

This car is making me so sick
