Reggie and the Full Effect

All I want to do
Hanging on to you
It's all I want to do
Now you
Now you'll run away
Hold on girl and stay
Stay with me
With me

So how's my best friend
Please don't let it end
Smile was sent to mend
Mend you
What won't go your way
Think out loud and stay
Stay with me
With me

Its all the silly things
To be holding on to this
Feels like a spell
And you'll know your mine if it's true
Only for you
Only for you
