Off Delaware

Reggie and the Full Effect

Monday,
Back to the city.
Back to your city,
The one you call home.
Tuesday,
I've got to go away.
Will you come with me?
It's not very far.

But while you were sleeping
My heart started singing
To never let you go.

Wednesday,
I'd take it all away.
Except the time with me,
That's finally ours.

But while you were sleeping
My heart started singing.
While you were sleeping
My heart started screaming,
Never let you go.

Never let you go.
Never let you go.
Never let you go.
Ah ah
Never let you go.
Never let you go.

You want space
To be in another place.
Tell me you're with me,
Wherever you are.

And while you were sleeping
My heart started screaming
And while you were sleeping
My heart started singing
To never let you go.
