

# All I Want Is Forever

Regina Belle

All I want  
All I want is forever  
I don't want much from you  
Just your love my whole life through  
That's all I want; yes that's all I want.

And all I need is to be with you always  
I don't need much you see  
Just need eternity  
And to be with you; yes to be with you.

Forever  
All I want is forever  
Am I asking too much, asking for all your love forever?

Oh... All I know is when we're together, baby  
Time passes much too fast  
And I want to make it last  
Last forever more; girl forever more.

And all my life,  
I've been waiting to find, to find you baby  
Now that you're finally here,  
Ooh I want you always near, yeah  
To share my life, yes to share my life.

Forever  
All I want is forever  
Am I asking too much, asking for all your love...

Forever  
Won't you give me forever  
I'm not asking too much, asking for all your love  
forever.

Oh, just say that you will stay for always  
And always you'll be mine  
At least till the end of time.

Forever  
Won't you give me forever  
I'm not asking too much, asking for all your love...

Forever  
All I want is forever  
Am I asking too much, asking for all your love forever?
